Summary: IT Engineering student from Bosnia & Herzegovina. Passionate about open source software, artificial intelligence and cybersecurity. Experienced in working with both Windows and Linux-based operating systems. Capable of programming in several programming languages. Decent theoretical knowledge of cybersecurity.

Formal education: Computer Technician
Technical High School Brčko, Bosnia & Herzegovina 2009/2013
My graduation thesis is actively used in the school's administration.
Bachelor of Engineering Informatics (in progress)
eMPIRICA Brčko, Bosnia & Herzegovina 2013/2016
The work I programmed in my first year as a part of the curriculum is being advertised as the best one in my year by the college itself (as stated [here](#)).

Certificates¹: YouthPass certificate
European Voluntary Service (Erasmus+) 2015.
Introduction to Cybersecurity
Cisco Networking Academy 2014.
Malicious Software and its Underground Economy: Two Sides to Every Story
University of London (via Coursera) 2013.

Work experience: Currently without any type of formal work experience.

Personal projects: [Has The Turing Test Been Passed?](#) HTML5/CSS3, AI theory
[awesome-linux](#) Linux resources
[awesome-c](#) C programming language resources
[Sensitive Data Grabber](#) Collecting sensitive data on Windows machines

Projects I've contributed to: [Opensource.com](#) Writing, brand representation, community spokesperson
[elementary OS](#) Web design, localization, marketing
[awesome lists](#) Collecting resources, design and structuring decisions
[Tor Project](#) Translation and managing translations
[reddit](#) Translation

Volunteering experience: Opensource.com Community Moderator (June 1st 2015 – present)
EVS Looking to Future: Springbos 2015 (April 10th 2015 – May 9th 2015)
No Hate Online – No Hate Offline workshops (November and December 2014)
Terrain work during the floods in Bosnia & Herzegovina (May 2014)

Programming languages: Visual Basic (.NET framework), C/C++, Python

Web development technologies: HTML5/CSS3, Bootstrap, Jekyll

Languages I speak: Serbian/Bosnian/Croatian Native speaker
English Professional proficiency
German Basic understanding
Dutch Basic understanding

¹ I completed too many MOOCs to list them all here. For the full list, visit my [portfolio](#).
